About Bio Bench

Bio Bench is a CRO (Contract Research Organization) company focusing on customized antibody and protein services together with downstream assays. Since 2013, Bio Bench has supported more than 60 research units for their unique R&D projects.

Now, Bio Bench launched a series of high quality products generated from its talented service team. Please contact us for more information: info@bio-bench.com.

Bio Bench Advantages

Experienced team members from Roche, Genscript, Charles River, Abbvie and Wuxi Apptec.

Automated platform together with cutting edge devices improve efficiency and quality.

Professional project management, we understand researchers' needs.

Leading technology, a guarantee for better antibody and protein.

Bio Bench service unit

Gene Operation	Protein and Antigen	Antibody and Library	Antibody Engineering	Cell Assay
<ul style="list-style-type: none"> • Gene synthesis and subcloning • Fab-to-IgG rapid synthesis • DNA phage library 	<ul style="list-style-type: none"> • E.Coli expression system • HEK293 expression system • CHO expression system • High expression CHO system • Membrane protein expression • Protein tagging • Peptide antigenic epitope 	<ul style="list-style-type: none"> • Human naive antibody library construct and screening • Human synthesis antibody library construct and screening • Human disease antibody library construct and screening • Llama antibody library construct and screening • Hybridoma monoclonal antibody 	<ul style="list-style-type: none"> • Antibody sequencing • Affinity maturation • Antibody humanization • Fab/scFv antibody synthesis • Bi-function antibody 	<ul style="list-style-type: none"> • ADCC/CDC • Tumor microenvironment and regulation • Cell proliferation and inhibition • Apoptosis • Receptor-ligand binding assay • Immune cell activation assay • Whole cell binding assay • FACS/WB/IHC • Antibody affinity assay • Epitope mapping

Reconstructed protein: Interleukins

Protein	Catalog No.	Species	Uniprot ID	Expression host	*Tag	**Application
IL1A	PPMP110151HU	Human	P01583	Mammalian cells	N-His	SP, WB, E
